

My Village Library is a nonprofit enrichment program supporting the education and developmental growth of at-risk students in Hurst-Euless-Bedford ISD. Our Goal is to encourage and support students and families in our community through building relationships with volunteer mentors who help prepare and empower students to do their best work in school. This includes homework, reading, math, social skills and critical thinking aimed at creating lifelong learners.

*"We have to connect, before we can direct" as mentors who want to Excite, Prepare, Empower and Release Lifelong Learners into our community, our village.*
